CT Environmentally Preferred Purchasing

CT DAS state contracts offer a number of environmentally preferable products and services, many of which can save you money by using less energy. For more information on how you can purchase or use environmentally preferable products and services where you live and work, contact CT EPP at Barbara.moser@po.state.ct.us or call at (860) 713-5081.

Vendor Spotlight???

Who would you like to see in the "spotlight?" We want to give our vendors an opportunity to "shine" and "broadcast" the products and services they provide. Let us know what contracted vendors/businesses you would like to see featured in this new addition to our newsletter. Vendors, here is a great opportunity to be on center stage and let your products and services be known! Contact Teresa Dupont at teresa.dupont@po.state.ct.us with your requests and suggestions.

Peppy’s Points to Ponder

Thanks to **Cheryl Udin** of the **Oak Hill School** for sending in the following quote:

“I long to accomplish a great and noble task, but it is my chief duty to accomplish small tasks as if they were great and noble.”

-Helen Keller

Thanks to all my loyal WINners for submitting all these great quotes. Keep them coming! Don’t be shy! Please take a minute to send them to me at peppy.procurement@po.state.ct.us and watch for them to appear in future issues of WIN.

WINning Ways!

C'mon WINners. I know there are people who deserve to be recognized for a job well done. Is there a co-worker who always goes above and beyond to get the job done? Someone who is always willing to help out? Please take a few minutes to write and let me know about them. I know it would really brighten their day when they saw their name in our "WINning Ways" section of WIN and to see that their hard work and efforts were being recognized. Send your WINing Ways nominees to me at peppy.procurement@po.state.ct.us.

Ask Peppy!

Do you have a purchasing question and you can't seem to find the answer? Send it to me at peppy.procurement@po.state.ct.us and I will do my best to find the answer for you and post it in a future issue of WIN.

Tech Talk with Ms. Bits n' Bytes

TERM OF THE WEEK...Humanware

A buzzword for both hardware and software that are designed primarily around the end user experience and user interface rather than focusing on the task that the product is meant to accomplish. The design of humanware often begins with understanding the needs and limitations of the end user and working backwards to design the final product. Typically, a great deal of testing is done on the product to ensure that its design is enhancing the end user's experience in the desired way. For example, technology designed to aid persons with disabilities typically begins with understanding the needs of the end user before designing the product
